

PS-T10.03

Portable valve test bench for testing safety and shut-off valves

- DN 10 (3/8“) – DN 200 (8“)
- For testing safety and shut-off valves
- For flanged and threaded valves
- Portable, vertical
- Test medium: air / nitrogen / water
- Max. test pressure:
DN 10 (3/8“) / 210 bar (3045 psi)
DN 200 (8“) / 20 bar (290 psi)
- Clear and uncomplicated operation
- High-quality components ensure a long service life
- Water test pressure generation via a finely adjustable air-driven high-pressure pump

The PS-T10.03 is optionally available with an upper yoke, which makes it possible to clamp straight-through fittings between two test tables.

Additional testing options:

- Testing of weld-in fittings
- Body testing of valves without blind flange (time-consuming installation of the blind flange is no longer necessary)
- Stuffing box test (air) with up to 6 bar (87 psi)
